

CEH v1-v12 Upgrade to CEHv13 : Promotion for EC-Council Members

Process Guide

Why Upgrade to CEH v13?

In the fight against AI-driven cyber-attacks, the most effective defense is leveraging AI itself. That's why we developed CEH v13— empowering our member with cutting-edge AI tools and techniques across all five domains of ethical hacking. Certified Ethical Hackers trained in CEH v13 are equipped to identify, exploit, and secure system vulnerabilities leveraging today's AI tools, tactics and techniques.

Students will learn to automate threat detection, predict security breaches, and respond swiftly to cyber incidents. This unique combination of ethical hacking and AI expertise positions our members at the forefront of cybersecurity requirements, readying them to defend their organizations against evolving and surging threats.

CEH v13 powered by AI is the first and only one such program in the world and we welcome our members to this Members Only Promotion.
